# Terms and Conditions for Software Use

## § 1 Scope

1. These Terms and Conditions for Software Use shall govern STARs provision of Software to the Customer.
2. If the Customer acquires Hardware from STAR in which the Software has been preinstalled, these Terms and Conditions for Software Use shall apply to the preinstalled copy of the Software by way of analogy.
3. These Terms and Conditions for Software Use govern the provision of software against payment and the provision of Demo Software. However, the provision of Demo Software is only governed to the extent explicitly provided in § 20 of these Terms and Conditions for Software Use. Provisions of these Terms and Conditions for Software Use that § 20 does not explicitly declare to be applicable to the provision of Demo Software apply exclusively to software that is provided against payment.

## § 2 Definitions

Unless otherwise explicitly stipulated, the following terms used in these Terms and Conditions for Software Use (including the definitions themselves) have the following meaning:

### **Customer**

The party to the respective agreement with STAR as licensee.

### **Demo Software**

Software that STAR provides to the Customer free of charge which has a limited functional scope compared to the corresponding Software provided against payment.

### **Device Driver**

Software that is designed to control a specific piece of Hardware and is acquired by the Customer from STAR together with this Hardware. Whether or not a piece of Software is a Device Driver is set forth in the respective User Documentation.

### **Download**

The possibility of transferring data in the Internet from one computer to the Customer's computer.

### **STAR**

### **Firmware/Embedded Software**

Software that is embedded in Hardware and is acquired by the Customer from STAR together with this Hardware. Whether such Software is Firmware or Embedded Software is set forth in the respective User Documentation.

**Hardware**

Electromechanical devices that are generally not functional without Software.

**License Materials**

The Software together with the User Documentation.

**License Models**

The License Models described in § 6 of these Terms and Conditions for Software Use for the licensing of the Software.

**Normal Working Hours**

**Parties**

STAR and the Customer together.

**Software**

The software that is listed and described in the order confirmation.

**Source Code**

The source code of the Software that is readable by humans and written in a programming language.

**Terms and Conditions for Software Use**

These general terms and conditions for the provision of Software for use.

**Update**

The bundling of several defect corrections and/or repairs of faults in the Software, as well as minor functional improvements or adjustments of the Software in a single batch.

**User Documentation**

The textual and technical description of the Software that is in effect prior to the conclusion of this agreement and is provided to the Customer prior to the conclusion of this agreement (e.g. Instructions for Use, User Manual, Documentation).

### **§ 3 Order of priority**

1. The agreements entered into by the Customer and STAR have the following order of priority:
  - order confirmation
  - User Documentation on the respective Software
  - these Terms and Conditions for Software Use
  - STAR's general terms and conditions of sale

In the event of any conflicts, the provisions listed first will always take priority over those listed last. Any gaps shall be filled by the respective subordinate provisions.

2. Any contrary or differing terms and conditions of the Customer shall only apply with STAR's explicit written consent.

### **§ 4 Contract formation**

All offers by STAR are non-binding. A contract between the Customer and STAR will only be concluded by the written confirmation of an order or the delivery of Software by STAR.

### **§ 5 General Terms and Conditions of use rights**

1. STAR grants the Customer the right to use the Software under these Terms and Conditions for Software Use. For the use of the Software, STAR offers the License Models designated in § 6 of these Terms and Conditions for Software Use. The following provisions of this § 5 of the Terms and Conditions for Software Use shall apply to all License Models insofar as no other provision is expressly made under § 6 of these Terms and Conditions for Software Use. Any use or exploitation of the Software that goes beyond these Terms and Conditions for Software Use is prohibited.
2. For the duration of the existence of any intellectual property rights, the Customer is granted a non-exclusive right to use the Software for internal use for the purposes set forth in the User Documentation. Use of Software means any permanent or temporary full or partial reproduction of the Software by means of saving, loading, running or displaying the Software for the purpose of executing the Software; any other reproduction of the Software is prohibited, with the exception of the making of a backup copy (§ 7 of these Terms and Conditions for Software Use). Prohibited is in particular, but without limitation, the reproduction of the Software for the purpose of passing it on to third parties with or without remuneration.
3. The Customer may only modify or edit the Software to the extent necessary for the use described in the User Documentation, to connect the Software with another computer program, or to correct errors. Other than that, the Customer may only modify the Software if and to the extent STAR has explicitly permitted the Customer to do so in writing.
4. With regard to the rights to the Software granted to the Customer, the Customer shall not grant rights to third parties. Nor may the Customer grant third parties a sublicense in the rights to the Software granted to the Customer. § 18 of these Terms and Conditions for Software Use remains unaffected.

## § 6 License Models

1. STAR offers the Customer the following License Models for the licensing of the Software:

a. "Single User License"

Only one employee of the Customer may use the Software on one computer at a time. The Customer is free to choose which computer and which employee will be involved in the use. The Customer is not allowed to keep the Software on the server of a network if this would enable multiple uses of the Software at the same time. If the Customer wishes to have the Software used by multiple employees or on multiple computers at the same time, the Customer must notify this in writing in advance and purchase additional licenses for the Software from STAR.

b. "Floating License"

The Customer may have the Software used by two or more employees on various computers at the same time. The number of employees entitled to use it at the same time can be derived from the order confirmation. The Customer is free to choose which employees and which computers will be involved in the use. If the Customer wishes to increase the number of employees entitled to use the Software at the same time, it must notify this in writing in advance and purchase additional licenses for the Software from STAR.

c. "Integrated Software License"

The Integrated Software License applies to device drivers, Firmware and Embedded Software. The Customer may use the licensed Software under the Integrated Software License only for the designated operation of the Hardware acquired from STAR together with this Software. The designated operation The designated operation is set forth in the respective User Documentation. Any other use of the Software, in particular but not limited to, the use of the Software for Hardware that the Customer did not acquire from STAR together with the Software is prohibited.

d. "Development Kit License"

The Customer may use the Software for the project stated in the order confirmation. Should the Customer wish to use the Software for other projects, the Customer must make prior notification of this to STAR and purchase further licenses for the software. Should no project be stated in the order confirmation in spite of the license model "Development Kit License" being specified, the Development Kit License shall be valid for the Customer's project which comes closest to the subject matter of the license in terms of content. In the framework of the respective project, the Software licensed under the Development Kit License may,

- (i) in derogation of § 5 para. 2 of these Terms and Conditions for Software Use, be used not only for internal purposes but also for third-party purposes.
- (ii) in derogation of § 5 para. 2 of these Terms and Conditions for Software Use, be reproduced for the purpose of passing on – either with or without remuneration –

software developed by the Customer. In this respect, passing on Software to third parties is subject to the condition that the Customer passes on the file "Copyright.txt" to the third party, and that the third party undertakes to comply with the restrictions deriving from the order confirmation, the User Documentation, the Terms and Conditions for Software Use and the restrictions deriving from the file "Copyright.txt" in using the Software.

(iii) in derogation of § 5 para. 4, be sublicensed to third parties insofar as the respective third party undertakes to comply with the restrictions deriving from the order confirmation, the User Documentation, these Terms and Conditions for Software Use and the restrictions deriving from the file "Copyright.txt" in using the Software. Any sublicense is dependent on the main license as regards validity and scope.

2. Device drivers, Firmware and Embedded Software shall always be licensed under the Integrated Software License. Otherwise, the rule shall apply that unless otherwise explicitly regulated in the confirmation of order, the Customer will merely be acquiring a "Single User License".

## **§ 7 Backup copy**

The use of the Software and the data contained therein in accordance with these Terms and Conditions for Software Use includes the creation of a backup copy. The backup copy may only be used for backup purposes. The Customer shall keep the backup copy at a secure location that is not accessible to third parties.

## **§ 8 Source Code/Object Code**

1. The Software will be provided to the Customer in the Object Code as a Download or on machine readable data carriers.
2. Unless otherwise explicitly provided in the order confirmation, the Customer is not entitled to the provision of the Source Code or parts thereof.
3. A decompilation of the Object Code is permissible only in compliance with the statutory limitations set forth in sec. 69e of the German Copyright Act (UrhG). Any decompilations in excess thereof are prohibited.

## **§ 9 User Documentation**

1. The Customer will receive one User Documentation in typewritten form and/or in electronic form on machine readable data carriers or as a Download.
2. The Customer may reproduce the User Documentation in typewritten form only with STAR's prior written consent. If the Customer receives the User Documentation only in electronic form, then notwithstanding sentence 1 the Customer may make one copy of the User Documentation in typewritten form for its own internal use.
3. In all other respects, § 5 through § 7 of these Terms and Conditions for Software Use shall apply by analogy to the use of the User Documentation in electronic form.

## **§ 10 Protection of the License Materials**

1. The Customer undertakes to comply with the protection notices contained in the License Materials, such as copyright notices and other reservations of rights, to retain them in unmodified form as well as to incorporate them into the backup copy in unmodified form.
2. Notwithstanding the use rights granted on the basis of these Terms and Conditions for Software Use, STAR retains all rights to the License Materials, including all rights in all copies or partial copies created thereof by the Customer. This does not affect the Customer's ownership of machine readable data carriers and Hardware.

## **§ 11 Maintenance of Software**

1. A prerequisite for the provision of Software maintenance is the conclusion of a maintenance agreement for a consideration. Without a maintenance agreement, the Customer shall have no claim to Software maintenance.
2. Software maintenance comprises the delivery of Updates to the Software once STAR also provides it to other customers in the normal course of business.
3. Maintenance agreements shall have a basic term of one calendar year commencing with the day on which the respective Software is provided. If the maintenance agreement is not terminated by one of the Parties in writing at least two calendar months prior to the expiration of the basic term, the maintenance agreement shall extend by another calendar year. Sentence 2 applies for every subsequent extension *mutatis mutandis*.
4. For the use of Updates of the Software, these Terms and Conditions for Software Use, in the version current at the time of the delivery of the respective Updates shall apply.

## **§ 12 Warranty of title (Rechtsmängelgewährleistung)**

1. The Customer shall notify STAR in writing without delay of any claims asserted against the Customer arising from an infringement of intellectual property rights by the License Materials.
2. If the Customer's designated use of the License Materials is impaired by the intellectual property rights of third parties, STAR shall to an extent reasonable for the Customer, have the right at STAR's option to acquire corresponding licenses from third parties at STAR's expense or to modify or replace the License Materials such that they no longer impair the intellectual property rights of third parties.
3. STAR shall not be liable under a warranty of title where the infringement of intellectual property rights of third parties is due to the fact that the Customer has modified or edited the License Materials or is using the Software together with Hardware or computer programs that were not supplied by STAR. This also applies where the third party's claims arise from a use of the License Materials by the Customer after it had been informed by STAR that as a result of a third party claim the use should be stopped.

## **§ 13 Warranty of merchantability (Sachmängelgewährleistung)**

1. The designated use and the conditions for operation of the Software are set forth in the User Documentation. The Customer bears sole responsibility for the selection and usage of the Software, including the performance results to be achieved by the usage of the Software.

2. STAR warrants that the Software in the version provided to the Customer is suitable for the designated use in accordance with the User Documentation. In the event of significant deviations from the User Documentation, STAR shall have the right and, unless unreasonable expense would be involved, the obligation to perform remediation. If the Customer cannot reasonably be expected to await the next Update of the Software and STAR fails to remediate such significant deviations of the Software from the User Documentation or to work around them such that the Customer is able to use the Software in the designated manner within a reasonable period of time,, the Customer may, at its option, withdraw or instead claim a reduction of the license fee pursuant to sec. 441 of the German Civil Code (BGB).
3. STAR will fulfill its warranty obligations during the Normal Working Hours ; no costs will be incurred by the Customer in this respect. If STAR is to fulfill warranty obligations outside of normal working hours, the Parties shall enter into a written supplementary agreement to compensate for the additional costs.
4. The Customer is obligated to provide STAR with verifiable documentation of the nature and occurrence of deviations of the Software from the User Documentation and shall cooperate in isolating any defects.
5. Obvious defects must be notified to STAR within a period of 2 (two) weeks of receipt of the Software; otherwise, STAR shall not be liable for a warranty violation. The timely dispatch of the notification of defect will be sufficient for compliance with the deadline; the burden of proof is on the Customer. If the Customer is a merchant (*Kaufmann*), the provisions of sec. 377 of the German Commercial Code (HGB) shall apply.
6. STAR shall have no warranty obligations if the Customer has modified or edited the Software.
7. STAR will likewise have no warranty obligations for defects in quality if the defect in the Software is due to the fact that the Customer is using the Software together with hardware or computer programs that were not supplied by STAR.
8. Should STAR nonetheless perform work to remediate defects in the cases set forth in § 13 paras. 6 and 7 of these Terms and Conditions for Software Use, the Customer shall pay for such work at STAR's normal rates in effect at the time such work is carried out.
9. The above limitations of the warranty obligation shall not apply in cases in which STAR has assumed a guarantee for a condition of the License Material or if STAR fraudulently concealed any defects.

#### **§ 14 Statute of limitations of warranty claims**

Subject to the provisions in the following sentence and in § 13 para. 9 of these Terms and Conditions for Software Use, warranty claims will become time-barred one year after delivery of the Software. However, the Customer's claims for damages or reimbursement of expenditures shall not be affected by the above provision and shall become time-barred according to the statutory time periods; for claims for damages and reimbursement of expenditures, the provisions in § 15 of these Terms and Conditions for Software Use shall apply.

#### **§ 15 Disclaimer of Liability**

1. In the event of a breach of material contractual duties (so-called "Cardinal Obligations"), STAR shall be liable toward the Customer for reimbursement of expenditures and damages (hereinafter in this § 15 of the Terms and Conditions for Software Use collectively referred to as "**Damages**"). Cardinal Obligations are all obligations whose breach would jeopardize the achievement of the contractual purpose, as well as all obligations whose fulfillment enables the proper performance of the contract in the first place and on compliance with which the Customer can generally rely. However, where a breach of a Cardinal Obligation is due only to slight negligence and does not result in injury to life, limb or health, the Customer's claims will be limited to Damages in the amount of the typically foreseeable damage.

2. STAR shall also be liable to the Customer pursuant to the provisions of the German Product Liability Act (*Produkthaftungsgesetz*), in cases of intent and gross negligence, for injury to life, limb or health, if it assumes a guarantee, as well as in all other cases of mandatory statutory liability, in each case in accordance with the statutory provisions.
3. In all other cases, claims for damages against STAR – regardless of their legal basis, in particular due to a breach of obligations under the contractual relationship between the Parties by STAR, its legal representatives, employees or vicarious agents (*Erfüllungsgehilfen*), pursuant to sec. 311a German Civil Code or based on tort – are disclaimed.
4. To the extent STAR's liability is limited or disclaimed under the above provisions, this shall also apply to the personal liability of STAR's legal representatives, employees and vicarious agents.

## **§ 16 Operating conditions for the Software**

1. The Software provided to the Customer was developed for use on certain hardware and for purposes of interoperability with certain other computer programs. These operating conditions are set forth in detail in the respective User Documentation, compliance with which is mandatory for the Customer. The Customer shall also inspect the Software carefully before putting it into productive operation. This applies especially, but not only, if the Software is to be put to use in a safety-critical area.
2. If the Software is not used in compliance with the operating conditions as set forth in § 16 para. 1 of these Terms and Conditions for Software Use, the warranty obligation pursuant to § 12 and § 13 of these Terms and Conditions for Software Use shall not apply. Should STAR nonetheless perform work to remediate the defects, the Customer shall pay for such work at STAR's normal rates in effect at the time such work is carried out.
3. In the event that third parties assert claims against STAR arising from the fact that the Customer, its legal representatives, employees or vicarious agents culpably used the Software without complying with the operating conditions pursuant to § 16 para. 1 of these Terms and Conditions for Software Use, the Customer shall indemnify STAR against such claims of the third party and reimburse STAR for all damage incurred in this connection. STAR shall notify the Customer in writing without delay in case any claims within the meaning of sentence 1 are asserted against it.

## **§ 17 Test phase**

1. The Customer has the right to test the Software free of charge before putting it into productive operation if this is explicitly provided for in the order confirmation. In that case, the individual modalities of the test phase (duration, etc.) will be those stated in the order confirmation.
2. In any case, the test phase shall end once the Customer begins to put the Software into productive operation. The Customer shall notify STAR in writing of the commencement of the productive operation.

## **§ 18 Transfer of the License Materials**

1. The Customer has the right to transfer the License Materials in their original condition to a third party, together with a copy of these Terms and Conditions for Software Use and the order confirmation as long as the Customer provides STAR with the name and complete address of such third party and the third party undertakes to STAR to comply with the restrictions set forth in the order confirmation, the User Documentation and these Terms and Conditions for Software Use when using the Software. This right to transfer the License Materials does not extend to modified or edited versions of the License Materials.

2. Upon the transfer of the License Materials in compliance with the prerequisites set forth in § 18 para. 1 of the Terms and Conditions for Software Use, the right to use the License Materials will pass to the third party, who thereby replaces the Customer within the meaning of these Terms and Conditions for Software Use. At the same time, the Customer's right to use the Software will end.
3. Upon the transfer of the License Materials, the Customer shall immediately and completely delete or otherwise destroy all copies and partial copies of the License Materials as well as modified or edited versions of the License Materials. This also applies to the backup copy pursuant to § 7 of these Terms and Conditions for Software Use.
4. § 18 paras. 1 to 3 of these Terms and Conditions for Software Use also apply if the transfer consists of a temporary provision for use. However, it is prohibited to rent out the License Materials or parts thereof.
5. For cases in which the License Materials are subsequently transferred to other third parties, § 18 paras. 1 to 4 of these Terms and Conditions for Software Use shall apply accordingly.
6. The above provisions of this § 18 of the Terms and Conditions for Software Use do not apply to Software licensed under the License Model "Development Kit License". Passing on this Software to third parties is only permissible subject to the preconditions provided for under § 6 para. 1 lit. d of the Terms and Conditions for Software Use.

## **§ 19 License fee / maintenance fees**

1. The Customer shall pay the license and maintenance fees set forth in the order confirmation. The amounts listed in the order confirmation do not include VAT, which will be invoiced separately at the rate in effect at the time.
2. In all other respects, the payment of the license and maintenance fees will be governed by STAR's general terms and conditions of sale, which shall be provided to the Customer prior to the conclusion of the contract.

## **§ 20 Demo Software**

1. Besides the Software STAR offers against payment, STAR also offers Demo Software in Object Code on machine readable data carriers or as a Download. The Customer is not entitled to a provision of Demo Software for use, nor to a provision of the Source Code of the Demo Software or parts thereof for use, nor to a provision of Updates of Demo Software for use.
2. The contract between the Customer and STAR on the provision of Demo Software for use shall be concluded by the utilization of the Demo Software by the Customer.
3. For the duration of the existence of any intellectual property rights, the Customer is granted a non-exclusive right to use the Demo Software internally for the purposes set forth in the User Documentation. Use of the Demo Software means any permanent or temporary full or partial reproduction of the Demo Software by means of saving, loading, running or displaying it for the purpose of executing the Demo Software; any other reproduction of the Demo Software is prohibited, with the exception of the making of a backup copy (§ 7 of these Terms and Conditions for Software Use). Prohibited is in particular, but without limitation, the reproduction of the Demo Software for the purpose of passing it on to third parties with or without remuneration.
4. The Customer shall have no right to modify or edit the Demo Software. A decompilation of the Object Code is permissible only subject to the statutory restrictions set forth in sec. 69e Copyright Act. Any decompilations in excess thereof are prohibited.

5. With regard to the rights to the Demo Software granted to the Customer, the Customer shall not grant any rights to third parties. Nor may the Customer grant third parties a sub-license in the rights to the Demo Software granted to the Customer.
6. STAR shall only be liable for defects of title or quality of the Demo Software and the respective User Documentation if STAR has fraudulently concealed such defect. Apart from warranty obligations, STAR shall only be liable for intent and gross negligence. Any other liability of STAR is disclaimed. To the extent STAR liability is limited or disclaimed pursuant to the above provisions, this shall also apply to STAR's legal representatives, employees and vicarious agents.
7. The Demo Software provided to the Customer was developed for use on certain hardware and for purposes of interoperability with certain other computer programs. These operating conditions are set forth in detail in the respective User Documentation. In the event that third parties assert claims against STAR arising from the fact that the Customer, its legal representatives, employees or vicarious agents culpably used the Demo Software without complying with the operating conditions pursuant to § 20 para. 7 sentence 2 of these Terms and Conditions for Software Use, the Customer shall indemnify STAR against such claims of the third party and reimburse STAR for all damage incurred in this connection. STAR shall notify the Customer in writing without delay in case any such claims are asserted against it.
8. In all other respects, the following provisions of these Terms and Conditions for Software Use shall apply by analogy to the provision of the Demo Software: § 7, § 9 (with the modification that § 9 para. 3 shall refer to this § 20), § 10 and § 22.

## **§ 21 Confidentiality**

1. The confidentiality obligations of both Parties follow from a separate confidentiality agreement. If the Parties have not entered into such a separate confidentiality agreement, the following paras. 2 to 4 shall apply.
2. The Parties undertake to maintain secrecy for an unlimited period of time with regard to all confidential information that becomes accessible to them in connection with this agreement. Confidential information is information that a Party has either marked or in any other way designated in writing as protected or confidential, or information that, in light of the circumstances of its disclosure, the recipient Party must reasonably identify as confidential. Confidential information includes in particular, but without limitation, the License Materials.
3. The above confidentiality obligations will not apply if and to the extent the respective item of information demonstrably (i) is generally known or has become generally known without a party's fault and without violation of these obligations of confidentiality, (ii) is or becomes state of the art, (iii) was already known to the recipient Party at the time of its disclosure, which must be proved by documents evidencing such knowledge, (iv) was or is lawfully made known or accessible to the recipient Party by a third party, (v) has to be disclosed due to statutory provisions or enforceable official orders or court decisions. The burden of proving the existence of such an exception is borne by the respective recipient of the information. In any case, the respective affected Party must, to the extent possible, be informed in a timely manner prior to the disclosure of the information to third parties.
4. Both Parties will take suitable precautions to protect the confidential information of the respective other Party. Both Parties will disclose confidential information of the respective other Party to governing bodies, employees, consultants or sub-contractors only subject to this confidentiality obligation, which must likewise be imposed on the recipient.

## § 22 Miscellaneous

1. Should any individual provisions of these Terms and Conditions for Software Use be or become invalid, this shall not affect the validity of the other provisions.
2. For the purpose of handling the provision of the Software, STAR will store personal data of the Customer in an IT system and automatically process it. The data will not be used for any purposes in excess thereof. It will not be passed on to third parties.
3. The governing laws are the laws of the Federal Republic of Germany. The UN Convention on Contracts for the International Sale of Goods does not apply.
4. If the Customer is a merchant (*Kaufmann*), a legal entity under public law (*juristische Person des öffentlichen Rechts*) or a special fund under public law (*öffentlich-rechtliches Sondervermögen*), the exclusive legal venue for all disputes shall be Stuttgart. STAR is entitled, at its option, to file suit against the Customer at the latter's general legal venue.

1. Die zwischen dem Kunden und STAR geschlossenen Vereinbarungen stehen in der folgenden Rangfolge:

- Auftragsbestätigung
- Anwenderdokumentation zur jeweiligen Software
- Softwarenutzungsbedingungen
- Allgemeine Verkaufsbedingungen von STAR

Die zuerst genannten Bestimmungen haben bei Widersprüchen stets Vorrang vor den zuletzt genannten Bestimmungen. Lücken werden durch die jeweils nachrangigen Bestimmungen ausgefüllt.

2. Entgegenstehende oder abweichende Geschäftsbedingungen des Kunden gelten nur, wenn STAR diesen ausdrücklich schriftlich zugestimmt hat.

### **§ 4 Vertragsschluss**

Alle Angebote von STAR sind freibleibend. Ein Vertrag kommt zwischen dem Kunden und STAR erst durch die schriftliche Auftragsbestätigung oder durch die Lieferung der Software durch STAR zustande.

### **§ 5 Allgemeine Bedingungen zum Nutzungsrecht**

1. STAR räumt dem Kunden das Recht ein, die Software unter diesen Softwarenutzungsbedingungen zu nutzen. Für die Softwarenutzung bietet STAR die in § 6 dieser Softwarenutzungsbedingungen genannten Lizenzmodelle an. Die nachfolgenden Regelungen dieses § 5 der Softwarenutzungsbedingungen gelten für alle Lizenzmodelle, soweit in § 6 dieser Softwarenutzungsbedingungen nicht ausdrücklich etwas anderes geregelt ist. Jede über diese Softwarenutzungsbedingungen hinausgehende Nutzung oder Verwertung der Software ist ausgeschlossen.
2. Der Kunde erhält für die Dauer des Bestehens etwaiger Schutzrechte ein nicht ausschließliches Recht, die Software für die in der Anwenderdokumentation vorgesehenen Zwecke für den internen Gebrauch zu nutzen. Nutzung der Software ist dabei jede dauerhafte oder vorübergehende ganze oder teilweise Vervielfältigung der Software durch Speichern, Laden, Ablaufen oder Anzeigen zum Zweck der Ausführung der Software; jede anderweitige Vervielfältigung der Software ist mit Ausnahme der Anfertigung einer Sicherungskopie (§ 7 der Softwarenutzungsbedingungen) ausgeschlossen. Ausgeschlossen ist insbesondere, aber nicht nur, die Vervielfältigung der Software zum Zweck der unentgeltlichen oder entgeltlichen Weitergabe an Dritte.
3. Der Kunde darf die Software nur ändern oder bearbeiten, soweit dies zu der in der Anwenderdokumentation vorgesehenen Nutzung, zur Verbindung der Software mit einem anderen Computerprogramm oder zur Fehlerkorrektur erforderlich ist. Darüber hinaus darf der Kunde die Software nur ändern, wenn und soweit STAR dies dem Kunden ausdrücklich schriftlich erlaubt hat.
4. Der Kunde darf hinsichtlich der ihm an der Software eingeräumten Rechte Dritten keine Rechte einräumen. Ebenfalls darf der Kunde die ihm an der Software eingeräumten Rechte nicht an Dritte unterlizenzieren. § 18 der Softwarenutzungsbedingungen bleibt hiervon unberührt.

## § 6 Lizenzmodelle

1. STAR bietet dem Kunden für die Lizenzierung der Software die folgenden Lizenzmodelle an:

a. „Single User License“

Der Kunde darf die Software zur gleichen Zeit nur durch einen Mitarbeiter auf einem Computer nutzen. Auf welchem Computer und durch welchen Mitarbeiter die Nutzung erfolgt, ist dem Kunden freigestellt. Dem Kunden ist es nicht gestattet, die Software auf dem Server eines Netzwerks vorzuhalten, soweit hierdurch eine zeitgleiche Mehrfachnutzung der Software ermöglicht wird. Will der Kunde die Software gleichzeitig durch mehrere Mitarbeiter oder auf mehreren Computern nutzen, muss der Kunde dies vorher schriftlich anzeigen und entgeltlich weitere Lizenzen für die Software bei STAR erwerben.

b. „Floating License“

Der Kunde darf die Software zur gleichen Zeit durch mehrere Mitarbeiter auf verschiedenen Computern nutzen. Die Anzahl der gleichzeitig zur Nutzung berechtigten Mitarbeiter ergibt sich aus der Auftragsbestätigung. Durch welchen Mitarbeiter und auf welchen Computern die Nutzung erfolgt, ist dem Kunden freigestellt. Will der Kunde die Zahl der gleichzeitig zur Nutzung berechtigten Mitarbeiter erhöhen, muss der Kunde dies STAR vorher schriftlich anzeigen und entgeltlich weitere Lizenzen für die Software bei STAR erwerben.

c. „Integrated Software License“

Die Integrated Software License gilt für Gerätetreiber, Firmware und Embedded Software. Der Kunde darf unter der Integrated Software License lizenzierte Software ausschließlich für den bestimmungsgemäßen Betrieb der gemeinsam mit dieser Software bei STAR erworbenen Hardware nutzen. Der bestimmungsgemäße Betrieb ergibt sich aus der jeweiligen Anwenderdokumentation. Jede anderweitige Nutzung der Software, insbesondere, aber nicht nur, die Nutzung der Software für Hardware, die der Kunde nicht gemeinsam mit der Software bei STAR erworben hat, ist ausgeschlossen.

d. „Development Kit License“

Der Kunde darf die Software für das in der Auftragsbestätigung genannte Projekt nutzen. Will der Kunde die Software für andere Projekte nutzen, muss der Kunde dies vorher schriftlich STAR anzeigen und entgeltlich weitere Lizenzen für die Software bei STAR erwerben. Ist in der Auftragsbestätigung trotz der Angabe des Lizenzmodells „Development Kit License“ kein Projekt benannt, gilt die Development Kit License für das zur Lizenzvergabe sachnächste Projekt des Kunden. Die unter der Development Kit License lizenzierte Software darf im Rahmen des jeweiligen Projekts

(i) abweichend von § 5 Abs. 2 dieser Softwarenutzungsbedingungen vom Kunden nicht nur für interne Zwecke, sondern auch für die Zwecke Dritter genutzt werden.

- (ii) abweichend von § 5 Abs. 2 dieser Softwarenutzungsbedingungen zum Zweck der unentgeltlichen oder entgeltlichen Weitergabe vom Kunden entwickelter Software vervielfältigt werden. Wobei die Weitergabe der Software an Dritte nur unter der Bedingung erlaubt ist, dass der Kunde dem Dritten die Datei „Copyright.txt“ weitergibt und sich der Dritte verpflichtet, die Einschränkungen aus der Auftragsbestätigung, der Anwenderdokumentation, den Softwarenutzungsbedingungen und den sich aus der Datei „Copyright.txt“ ergebenden Einschränkungen bei der Nutzung der Software einzuhalten.
  - (iii) abweichend von § 5 Abs. 4 an Dritte unterlizenzieren, sofern sich der jeweilige Dritte verpflichtet, die Einschränkungen aus der Auftragsbestätigung, der Anwenderdokumentation, diesen Softwarenutzungsbedingungen und den sich aus der Datei „Copyright.txt“ ergebenden Einschränkungen bei der Nutzung der Software einzuhalten. Jede Unterlizenz ist im Bestand und Umfang von der Hauptlizenz abhängig.
2. Gerätetreiber, Firmware und Embedded Software werden immer unter der Integrated Software License lizenziert. Im übrigen gilt: Soweit nicht ausdrücklich etwas anderes in der Auftragsbestätigung geregelt ist, erwirbt der Kunde nur eine „Single User License“.

## **§ 7 Sicherungskopie**

Zur vertragsgemäßen Nutzung der Software und den darin enthaltenen Datenbeständen gehört die Herstellung einer Sicherungskopie. Die Sicherungskopie darf ausschließlich zu Sicherungszwecken verwendet werden. Der Kunde wird die Sicherungskopie an einem sicheren, für Dritte nicht zugänglichen Ort aufbewahren.

## **§ 8 Quellcode/Objektcode**

1. Die Software wird dem Kunden im Objektcode als Download oder auf maschinenlesbaren Datenträgern überlassen.
2. Soweit in der Auftragsbestätigung nicht ausdrücklich etwas anderes geregelt ist, hat der Kunde keinen Anspruch auf die Überlassung des Quellcodes oder von Teilen des Quellcodes.
3. Eine Rückübersetzung des Objektcodes ist nur unter Einhaltung der gesetzlichen Beschränkungen gemäß § 69e UrhG zulässig. Weitergehende Rückübersetzungen sind ausgeschlossen.

## **§ 9 Anwenderdokumentation**

1. Der Kunde erhält eine Anwenderdokumentation in druckschriftlicher Form und/oder in elektronischer Form auf maschinenlesbaren Datenträgern oder als Download.
2. Der Kunde darf die Anwenderdokumentation in druckschriftlicher Form nur mit vorheriger schriftlicher Zustimmung von STAR vervielfältigen. Erhält der Kunde die Anwenderdokumentation nur in elektronischer Form, darf der Kunde abweichend von Satz 1 eine Vervielfältigung der Anwenderdokumentation in druckschriftlicher Form für den eigenen internen Gebrauch erstellen.

3. Im Übrigen gelten für die Nutzung der Anwenderdokumentation in elektronischer Form § 5 bis § 7 der Softwarenutzungsbedingungen sinngemäß.

## **§ 10 Schutz des Lizenzmaterials**

1. Der Kunde verpflichtet sich, die im Lizenzmaterial enthaltenen Schutzvermerke wie Copyrightvermerke und andere Rechtsvorbehalte zu beachten, unverändert beizubehalten sowie in der Sicherungskopie in unveränderter Form zu übernehmen.
2. Unbeschadet der auf Grund dieser Softwarenutzungsbedingungen eingeräumten Nutzungsrechte behält STAR alle Rechte am Lizenzmaterial einschließlich aller vom Kunden hergestellten Kopien oder Teilkopien desselben. Das Eigentum des Kunden an maschinenlesbaren Datenträgern und Hardware wird hiervon nicht berührt.

## **§ 11 Softwarepflege**

1. Voraussetzung für die Leistung von Softwarepflege ist der Abschluss eines entgeltlichen Pflegevertrags. Ohne Pflegevertrag hat der Kunde keinen Anspruch auf Softwarepflege.
2. Gegenstand der Softwarepflege ist die Lieferung von Updates der Software, sobald STAR diese im normalen Geschäftsverkehr auch anderen Kunden zur Verfügung stellt.
3. Pflegeverträge haben eine Grundlaufzeit von einem Kalenderjahr beginnend mit dem Tag der Überlassung der jeweiligen Software. Wird der Pflegevertrag nicht spätestens zwei Kalendermonate vor Ablauf der Grundlaufzeit von einer der Vertragsparteien schriftlich gekündigt, verlängert sich der Pflegevertrag um ein weiteres Kalenderjahr. Satz 2 gilt für jede nachfolgende Verlängerung entsprechend.
4. Für die Nutzung von Updates der Software gelten diese Softwarenutzungsbedingungen in ihrer bei Lieferung des jeweiligen Updates gültigen Fassung.

## **§ 12 Gewährleistung für Rechtsmängel**

1. Der Kunde wird STAR unverzüglich schriftlich benachrichtigen, falls ihm gegenüber Ansprüche wegen der Verletzung von Schutzrechten durch das Lizenzmaterial geltend gemacht werden.
2. Wird der Kunde an der vertragsgemäßen Nutzung des Lizenzmaterials durch Schutzrechte Dritter beeinträchtigt, so hat STAR in einem für den Kunden zumutbaren Umfang das Recht, nach der Wahl von STAR und auf Kosten von STAR entsprechende Lizenzen vom Dritten zu erwerben oder das Lizenzmaterial so zu ändern oder auszutauschen, dass es die Schutzrechte des Dritten nicht mehr beeinträchtigt.
3. STAR trifft keine Verpflichtung zur Rechtsmängelgewährleistung, soweit die Verletzung von Schutzrechten Dritter darauf beruht, dass der Kunde das Lizenzmaterial geändert oder bearbeitet hat, oder darauf, dass der Kunde die Software zusammen mit nicht von STAR gelieferter Hardware oder Computerprogrammen nutzt. Dies gilt auch, wenn die Ansprüche des Dritten auf einer Nutzung des Lizenzmaterials durch den Kunden beruhen, nachdem STAR den Kunden darauf hingewiesen hat, dass die Nutzung wegen eines Anspruchs von Dritten einzustellen ist.

### **§ 13 Gewährleistung für Sachmängel**

1. Die vertragsgemäße Benutzung und die Einsatzbedingungen der Software ergeben sich aus der Anwenderdokumentation. Die Verantwortung für die Auswahl der Software und den Einsatz der Software einschließlich der durch deren Einsatz herbeizuführenden Leistungsergebnisse liegt allein beim Kunden.
2. Für die Software in der dem Kunden überlassenen Fassung gewährleistet STAR die Eignung für den vertragsgemäßen Gebrauch in Übereinstimmung mit der Anwenderdokumentation. Im Fall von erheblichen Abweichungen von der Anwenderdokumentation ist STAR zur Nachbesserung berechtigt und, soweit dies nicht mit unangemessenem Aufwand verbunden ist, auch verpflichtet. Ist dem Kunden das Abwarten auf das nächste Update der Software nicht zumutbar und gelingt es STAR innerhalb einer angemessenen Frist nicht, durch Nachbesserung die erheblichen Abweichungen der Software von der Anwenderdokumentation zu beseitigen oder so zu umgehen, dass dem Kunden der vertragsgemäße Gebrauch der Software ermöglicht wird, kann der Kunde nach seiner Wahl zurücktreten oder stattdessen eine Herabsetzung der Lizenzgebühr gemäß § 441 BGB verlangen.
3. STAR erfüllt die Gewährleistungspflichten während der Üblichen Arbeitszeiten; insoweit entstehen für den Kunden keine Kosten. Soll STAR Gewährleistungspflichten außerhalb der üblichen Arbeitszeiten erfüllen, so ist eine schriftliche Zusatzvereinbarung zum Ausgleich der anfallenden Mehrkosten erforderlich.
4. Der Kunde ist verpflichtet, STAR nachprüfbar Unterlagen über Art und Auftreten von Abweichungen der Software von der Anwenderdokumentation zur Verfügung zu stellen und bei der Eingrenzung von Fehlern mitzuwirken.
5. Offensichtliche Mängel sind STAR innerhalb einer Frist von 2 (zwei) Wochen ab Empfang der Software anzuzeigen; anderenfalls ist die Geltendmachung des Gewährleistungsanspruchs ausgeschlossen. Zur Fristwahrung genügt die rechtzeitige Absendung der Mängelanzeige; die Beweislast hierfür trifft den Kunden. Ist der Kunde Kaufmann, gelten die Regelungen des § 377 HGB.
6. STAR trifft keine Verpflichtung zur Sachmängelgewährleistung, wenn der Kunde die Software geändert oder bearbeitet hat.
7. Ebenfalls trifft STAR keine Verpflichtung zur Sachmängelgewährleistung, wenn der Mangel der Software darauf beruht, dass der Kunde die Software zusammen mit nicht von STAR gelieferter Hardware oder Computerprogrammen nutzt.
8. Erbringt STAR in den Fällen des § 13 Abs. 6 und 7 dieser Softwarenutzungsbedingungen dennoch Arbeiten zur Mängelbeseitigung, hat der Kunde diese Arbeiten nach den zum Zeitpunkt der Ausführung dieser Arbeiten üblichen Sätzen von STAR zu vergüten.
9. Die vorstehenden Einschränkungen der Gewährleistungspflicht gelten nicht in Fällen, in denen STAR eine Garantie für die Beschaffenheit des Lizenzmaterials übernommen oder Mängel arglistig verschwiegen hat.

### **§ 14 Verjährung von Gewährleistungsansprüchen**

Gewährleistungsansprüche verjähren – vorbehaltlich der Regelungen im folgenden Satz und in § 13 Abs. 9 der Softwarenutzungsbedingungen – in einem Jahr ab Ablieferung der Software. Schadensersatz- oder Aufwendungsersatzansprüche des Kunden bleiben hingegen durch die vorstehenden Regelungen unberührt und verjähren innerhalb der gesetzlichen Fristen; für Schadensersatz- und Aufwendungsersatzansprüche gelten die Regelungen in § 15 der Softwarenutzungsbedingungen.

## **§ 15 Haftung**

1. STAR haftet dem Kunden bei der Verletzung wesentlicher Vertragspflichten (sogenannter Kardinalpflichten) auf Aufwendungs- und Schadensersatz (im Folgenden in § 15 der Softwarenutzungsbedingungen gemeinsam „**Schadensersatz**“). Kardinalpflichten sind alle Pflichten, deren Verletzung die Erreichung des Vertragszwecks gefährdet sowie alle Pflichten, deren Erfüllung die ordnungsgemäße Durchführung des Vertrags überhaupt erst ermöglicht und auf deren Einhaltung der Kunde regelmäßig vertrauen darf. Soweit jedoch die Verletzung einer Kardinalpflicht nur leicht fahrlässig geschah und nicht zu einer Verletzung von Leben, Körper oder Gesundheit führte, sind Ansprüche des Kunden auf Schadensersatz der Höhe nach auf den typischen vorhersehbaren Schaden beschränkt.
2. STAR haftet dem Kunde außerdem nach den Vorschriften des Produkthaftungsgesetzes, in Fällen des Vorsatzes und der groben Fahrlässigkeit, für die Verletzung des Lebens, des Körpers oder der Gesundheit, bei Übernahme einer Garantie sowie in allen anderen Fällen gesetzlich zwingender Haftung, jeweils nach Maßgabe der gesetzlichen Vorschriften.
3. Im Übrigen sind Ansprüche auf Schadensersatz gegen STAR – gleich aus welchem Rechtsgrund, insbesondere wegen Verletzung von Pflichten aus diesem Schuldverhältnis durch STAR, deren gesetzliche Vertreter, Mitarbeiter oder Erfüllungsgehilfen, aus § 311a BGB oder aus unerlaubter Handlung – ausgeschlossen.
4. Soweit nach den vorstehenden Regelungen die Haftung von STAR eingeschränkt oder ausgeschlossen ist, gilt das auch für die persönliche Haftung der gesetzlichen Vertreter, Mitarbeiter und Erfüllungsgehilfen von STAR.

## **§ 16 Einsatzbedingungen für die Software**

1. Die dem Kunde überlassene Software wurde für den Einsatz auf bestimmter Hardware und für das Zusammenwirken mit bestimmten anderen Computerprogrammen entwickelt. Diese Einsatzbedingungen sind im Einzelnen in der jeweiligen Anwenderdokumentation angegeben, die vom Kunden zwingend zu beachten ist. Der Kunde ist verpflichtet, die Software vor dem produktiven Einsatz sorgfältig zu testen. Dies gilt insbesondere, aber nicht nur, wenn die Software in einem sicherheitskritischen Bereich eingesetzt werden soll.
2. Bei der Benutzung der Software ohne Einhaltung der Einsatzbedingungen gemäß § 16 Abs. 1 dieser Softwarenutzungsbedingungen entfällt die Verpflichtung zur Gewährleistung nach § 12 und § 13 dieser Softwarenutzungsbedingungen. Erbringt STAR dennoch Arbeiten zur Mängelbeseitigung, hat der Kunde diese Arbeiten nach den zum Zeitpunkt der Ausführung dieser Arbeiten üblichen Sätzen von STAR zu vergüten.
3. Machen Dritte gegenüber STAR Ansprüche geltend und beruhen diese Ansprüche darauf, dass der Kunde, dessen gesetzliche Vertreter, Mitarbeiter oder Erfüllungsgehilfen die Software schuldhaft ohne Einhaltung der Einsatzbedingungen gemäß § 16 Abs. 1 dieser Softwarenutzungsbedingungen genutzt haben, wird der Kunde STAR von diesen Ansprüchen des Dritten freistellen und STAR alle in diesem Zusammenhang entstehenden Schäden ersetzen. STAR wird den Kunden unverzüglich schriftlich benachrichtigen, falls STAR gegenüber Ansprüche im Sinne von Satz 1 geltend gemacht werden.

## **§ 17 Testphase**

1. Der Kunde darf die Software vor der produktiven Nutzung kostenlos testen, wenn dies ausdrücklich in der Auftragsbestätigung vorgesehen ist. In diesem Fall ergeben sich auch die einzelnen Modalitäten der Testphase (Dauer, etc.) aus der Auftragsbestätigung.
2. In jedem Fall endet die Testphase, wenn der Kunde mit der produktiven Nutzung der Software beginnt. Der Kunde ist verpflichtet, STAR den Beginn der produktiven Nutzung schriftlich anzuzeigen.

## **§ 18 Weitergabe des Lizenzmaterials**

1. Der Kunde ist berechtigt, das Lizenzmaterial im Originalzustand zusammen mit einer Kopie dieser Softwarenutzungsbedingungen und der Auftragsbestätigung an einen Dritten abzugeben, soweit der Kunde STAR den Namen und die vollständige Adresse des Dritten schriftlich mitteilt und sich der Dritte gegenüber STAR verpflichtet, die Einschränkungen aus der Auftragsbestätigung, der Anwenderdokumentation und diesen Softwarenutzungsbedingungen bei der Nutzung der Software einzuhalten. Diese Berechtigung zur Weitergabe des Lizenzmaterials erstreckt sich nicht auf geänderte oder bearbeitete Fassungen des Lizenzmaterials.
2. Mit der Weitergabe des Lizenzmaterials unter Einhaltung der Voraussetzungen gemäß § 18 Abs. 1 der Softwarenutzungsbedingungen geht die Berechtigung zur Nutzung des Lizenzmaterials auf den Dritten über, der damit im Sinne der Softwarenutzungsbedingungen an die Stelle des Kunden tritt. Zugleich erlischt die Berechtigung des Kunden, die Software zu nutzen.
3. Mit der Weitergabe des Lizenzmaterials hat der Kunde alle Kopien und Teilkopien des Lizenzmaterials sowie geänderte oder bearbeitete Fassungen des Lizenzmaterials umgehend und vollständig zu löschen oder auf andere Weise zu vernichten. Dies gilt auch für die Sicherungskopie gemäß § 7 der Softwarenutzungsbedingungen.
4. § 18 Abs. 1 bis 3 der Softwarenutzungsbedingungen gelten auch, wenn die Weitergabe in einer zeitweiser Überlassung besteht. Die Vermietung des Lizenzmaterials oder von Teilen davon ist jedoch ausgeschlossen.
5. Für nachfolgende Weitergaben des Lizenzmaterials gelten § 18 Abs. 1 bis 4 der Softwarenutzungsbedingungen entsprechend.
6. Die vorstehenden Regelungen dieses § 18 der Softwarenutzungsbedingungen gelten nicht für Software, die unter dem Lizenzmodell „Development Kit License“ lizenziert wird. Die Weitergabe dieser Software an Dritte ist nur unter den in § 6 Abs. 1 lit. d der Softwarenutzungsbedingungen geregelten Voraussetzungen zulässig.

## **§ 19 Lizenzgebühr/ Pflegegebühren**

1. Der Kunde zahlt die in der Auftragsbestätigung ausgewiesenen Lizenz- und Pflegegebühren. Die in der Auftragsbestätigung aufgeführten Beträge enthalten keine Umsatzsteuer, diese wird gesondert mit dem jeweils gültigen Satz in Rechnung gestellt.
2. Im Übrigen gelten für die Zahlung der Lizenz- und der Pflegegebühren die Allgemeinen Verkaufsbedingungen von STAR, die dem Kunden vor Vertragsschluss zur Verfügung gestellt worden sind.

## **§ 20 Demosoftware**

1. STAR bietet neben der entgeltlichen Software auch Demosoftware im Objektcode auf maschinenlesbaren Datenträgern oder als Download an. Der Kunde hat keinen Anspruch auf die Überlassung von Demosoftware, auf die Überlassung des Quellcodes oder von Teilen des Quellcodes von Demosoftware oder auf die Überlassung von Updates von Demosoftware.
2. Der Vertrag zwischen dem Kunden und STAR über die Überlassung von Demosoftware kommt durch die Ingebrauchnahme der Demosoftware durch den Kunden zustande.
3. Der Kunde erhält für die Dauer des Bestehens etwaiger Schutzrechte ein nicht ausschließliches Recht, die Demosoftware für die in der Anwenderdokumentation vorgesehenen Zwecke intern zu nutzen. Nutzung der Demosoftware ist dabei jede dauerhafte oder vorübergehende ganze oder teilweise Vervielfältigung der

Demosoftware durch Speichern, Laden, Ablaufen oder Anzeigen zum Zweck der Ausführung der Demosoftware; jede anderweitige Vervielfältigung der Demosoftware ist mit Ausnahme der Anfertigung einer Sicherungskopie (§ 7 der Softwarenutzungsbedingungen) ausgeschlossen. Ausgeschlossen ist insbesondere, aber nicht nur, die Vervielfältigung der Demosoftware zum Zweck der entgeltlichen oder unentgeltlichen Weitergabe an Dritte.

4. Der Kunde hat kein Recht, die Demosoftware zu ändern oder zu bearbeiten. Eine Rückübersetzung des Objektcodes ist ausschließlich unter den gesetzlichen Beschränkungen gemäß § 69e UrhG zulässig. Weitergehende Rückübersetzungen sind ausgeschlossen.
5. Der Kunde darf hinsichtlich der ihm an der Demosoftware eingeräumten Rechte Dritten keine Rechte einräumen. Ebenfalls darf der Kunde die ihm an der Demosoftware eingeräumten Rechte nicht an Dritte unterlizenzieren.
6. Für Rechts- und Sachmängel der Demosoftware und der jeweiligen Anwenderdokumentation haftet STAR nur, wenn STAR einen Mangel arglistig verschweigt. Außerhalb der Mängelgewährleistung haftet STAR nur für Vorsatz und grobe Fahrlässigkeit. Im Übrigen ist die Haftung von STAR ausgeschlossen. Soweit nach den vorstehenden Regelungen die Haftung von STAR eingeschränkt oder ausgeschlossen ist, gilt das auch für die persönliche Haftung der gesetzlichen Vertreter, Mitarbeiter und Erfüllungsgehilfen von STAR.
7. Die dem Kunde überlassene Demosoftware wurde für den Einsatz auf bestimmter Hardware und für das Zusammenwirken mit bestimmten anderen Computerprogrammen entwickelt. Diese Einsatzbedingungen sind im Einzelnen in der jeweiligen Anwenderdokumentation angegeben. Machen Dritte gegenüber STAR Ansprüche geltend und beruhen diese Ansprüche darauf, dass der Kunde, dessen gesetzliche Vertreter, Mitarbeiter oder Erfüllungsgehilfen die Demosoftware schuldhaft ohne Einhaltung der Einsatzbedingungen gemäß § 20 Abs. 7 Satz 2 der Softwarenutzungsbedingungen genutzt haben, wird der Kunde STAR von diesen Ansprüchen des Dritten freistellen und STAR alle in diesem Zusammenhang entstehenden Schäden ersetzen. STAR wird den Kunden unverzüglich schriftlich benachrichtigen, falls STAR gegenüber derartige Ansprüche geltend gemacht werden.
8. Auf die Überlassung der Demosoftware sind im Übrigen sinngemäß folgende Bestimmungen der Softwarenutzungsbedingungen anwendbar: § 7, § 9 (mit der Änderung, dass § 9 Abs. 3 auf diesen § 20 verweist), § 10, § 22.

## **§ 21 Geheimhaltung**

1. Die Geheimhaltungspflichten beider Vertragsparteien ergeben sich aus einer gesonderten Geheimhaltungsvereinbarung. Haben die Vertragsparteien keine gesonderte Geheimhaltungsvereinbarung abgeschlossen, gelten die nachfolgenden Abs. 2 bis 4.
2. Die Vertragsparteien verpflichten sich, sämtliche ihnen im Zusammenhang mit diesem Vertrag zugänglich werdenden vertraulichen Informationen unbefristet geheim zu halten. Vertrauliche Informationen sind Informationen, die entweder durch eine Vertragspartei als geschützt oder vertraulich markiert oder in anderer Weise schriftlich gekennzeichnet sind, oder Informationen, die gemäß den Umständen ihrer Offenlegung von der empfangenden Vertragspartei vernünftigerweise als vertraulich erkennbar sind. Zu den vertraulichen Informationen gehört insbesondere, aber nicht nur, das Lizenzmaterial.
3. Die vorstehende Geheimhaltungsverpflichtung gilt nicht, wenn und soweit die jeweiligen Informationen nachweislich (i) allgemein bekannt sind oder ohne Verschulden einer Vertragspartei und ohne Verstoß gegen diese Geheimhaltungsverpflichtung allgemein bekannt werden, (ii) Stand der Technik sind oder werden, (iii) der empfangenden Vertragspartei zum Zeitpunkt der Übermittlung bereits bekannt sind, was durch Unterlagen bewiesen werden muss, die eine solche Kenntnis belegen, (iv) der empfangenden Vertragspartei von einem Dritten rechtmäßig bekannt oder zugänglich gemacht wurden oder werden, (iv) aufgrund gesetzlicher Vorschriften oder vollstreckbarer behördlicher Verfügungen oder gerichtlicher Entscheidungen

offengelegt werden müssen. Die Beweislast für das Vorliegen eines Ausnahmetatbestandes trägt der jeweilige Informationsempfänger. In jedem Fall ist die jeweils betroffene Vertragspartei rechtzeitig vor der Weitergabe der Informationen an Dritte zu informieren, soweit dies möglich ist.

4. Beide Parteien werden angemessene Vorkehrungen zur Sicherung der vertraulichen Informationen der jeweils anderen Partei treffen. Beide Parteien werden vertrauliche Informationen der jeweils anderen Partei Organen, Mitarbeitern, Beratern oder Subunternehmern nur offen legen vorbehaltlich dieser Vertraulichkeitsverpflichtung, der die Empfänger dann entsprechend zu unterwerfen sind.

## **§ 22 Sonstiges**

1. Sollten einzelne Bestimmungen der Softwarenutzungsbedingungen unwirksam sein oder werden, so wird die Wirksamkeit der übrigen Bestimmungen hierdurch nicht berührt.
2. STAR wird personenbezogene Daten des Kunden zum Zweck der Abwicklung der Softwareüberlassung in einer EDV-Anlage speichern und automatisch verarbeiten. Zu darüber hinausgehenden Zwecken werden die Daten nicht verwendet. Eine Weitergabe der Daten an Dritte erfolgt nicht.
3. Es gilt das Recht der Bundesrepublik Deutschland. Das UN-Übereinkommen über Verträge über den internationalen Warenkauf findet keine Anwendung.
4. Ist der Kunde Kaufmann, juristische Person des öffentlichen Rechts oder öffentlich-rechtliches Sondervermögen, ist ausschließlicher Gerichtsstand für alle Streitigkeiten aus oder im Zusammenhang mit diesem Vertrag Stuttgart. STAR ist berechtigt, den Kunden wahlweise an dessen allgemeinem Gerichtsstand zu verklagen.

**GNU GENERAL PUBLIC LICENSE**

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

## GNU GENERAL PUBLIC LICENSE

### TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

#### NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY

MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

**License of the used SharpZipLib Library / Lizenz der verwendeten SharpZipLib Bibliothek  
(IV) SharpZipLib License:**

**License**

The library is released under the GPL with the following exception:

*Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License cover the whole combination.*

*As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version.*

**Note** The exception is changed to reflect the latest [GNU Classpath](#) exception. Older versions of #ziplib did have another exception, but the new one is clearer and it doesn't break compatibility with the old one.

**Bottom line** In plain English this means you can use this library in commercial closed-source applications.

**License of the used SharpZipLib Library / Lizenz der verwendeten SharpZipLib Bibliothek (V) GNU GPL 3:**

**GNU GENERAL PUBLIC LICENSE**

Version 3, 29 June 2007

Copyright © 2007 Free Software Foundation, Inc. <<http://fsf.org/>>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

**Preamble**

The GNU General Public License is a free, copyleft license for software and other kinds of works.

The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users. We, the Free Software Foundation, use the GNU General Public License for most of our software; it applies also to any other work released this way by its authors. You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

To protect your rights, we need to prevent others from denying you these rights or asking you to surrender the rights. Therefore, you have certain responsibilities if you distribute copies of the software, or if you modify it: responsibilities to respect the freedom of others.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must pass on to the recipients the same freedoms that you received. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

Developers that use the GNU GPL protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License giving you legal permission to copy, distribute and/or modify it.

For the developers' and authors' protection, the GPL clearly explains that there is no warranty for this free software. For both users' and authors' sake, the GPL requires that modified versions be marked as changed, so that their problems will not be attributed erroneously to authors of previous versions.

Some devices are designed to deny users access to install or run modified versions of the software inside them, although the manufacturer can do so. This is fundamentally incompatible with the aim of protecting users' freedom to change the software. The systematic pattern of such

abuse occurs in the area of products for individuals to use, which is precisely where it is most unacceptable. Therefore, we have designed this version of the GPL to prohibit the practice for those products. If such problems arise substantially in other domains, we stand ready to extend this provision to those domains in future versions of the GPL, as needed to protect the freedom of users.

Finally, every program is threatened constantly by software patents. States should not allow patents to restrict development and use of software on general-purpose computers, but in those that do, we wish to avoid the special danger that patents applied to a free program could make it effectively proprietary. To prevent this, the GPL assures that patents cannot be used to render the program non-free.

The precise terms and conditions for copying, distribution and modification follow.

## **TERMS AND CONDITIONS**

### **0. Definitions.**

“This License” refers to version 3 of the GNU General Public License.

“Copyright” also means copyright-like laws that apply to other kinds of works, such as semiconductor masks.

“The Program” refers to any copyrightable work licensed under this License. Each licensee is addressed as “you”. “Licensees” and “recipients” may be individuals or organizations.

To “modify” a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a “modified version” of the earlier work or a work “based on” the earlier work.

A “covered work” means either the unmodified Program or a work based on the Program.

To “propagate” a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.

To “convey” a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

An interactive user interface displays “Appropriate Legal Notices” to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

### **1. Source Code.**

The “source code” for a work means the preferred form of the work for making modifications to it. “Object code” means any non-source form of a work.

A “Standard Interface” means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

The “System Libraries” of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A “Major Component”, in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

The “Corresponding Source” for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work.

The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

The Corresponding Source for a work in source code form is that same work.

## **2. Basic Permissions.**

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you.

Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.

### **3. Protecting Users' Legal Rights From Anti-Circumvention Law.**

No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures.

When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

### **4. Conveying Verbatim Copies.**

You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program.

You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.

### **5. Conveying Modified Source Versions.**

You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

- a) The work must carry prominent notices stating that you modified it, and giving a relevant date.
- b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to “keep intact all notices”.
- c) You must license the entire work, as a whole, under this License to anyone who comes into possession of a copy. This License will therefore apply, along with any applicable section 7 additional terms, to the whole of the work, and all its parts, regardless of how they are packaged. This License gives no permission to license the work in any other way, but it does not invalidate such permission if you have separately received it.
- d) If the work has interactive user interfaces, each must display Appropriate Legal Notices; however, if the Program has interactive interfaces that do not display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which are not by their nature extensions of the covered work, and which are not combined with it such as to form a larger program, in or on a volume of a storage or distribution medium, is called an “aggregate” if the compilation and its resulting copyright are not used to limit the access or legal rights of the

compilation's users beyond what the individual works permit. Inclusion of a covered work in an aggregate does not cause this License to apply to the other parts of the aggregate.

## **6. Conveying Non-Source Forms.**

You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

- a) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange.
- b) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable physical medium customarily used for software interchange, for a price no more than your reasonable cost of physically performing this conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge.
- c) Convey individual copies of the object code with a copy of the written offer to provide the Corresponding Source. This alternative is allowed only occasionally and noncommercially, and only if you received the object code with such an offer, in accord with subsection 6b.
- d) Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in the same way through the same place at no further charge. You need not require recipients to copy the Corresponding Source along with the object code. If the place to copy the object code is a network server, the Corresponding Source may be on a different server (operated by you or a third party) that supports equivalent copying facilities, provided you maintain clear directions next to the object code saying where to find the Corresponding Source. Regardless of what server hosts the Corresponding Source, you remain obligated to ensure that it is available for as long as needed to satisfy these requirements.
- e) Convey the object code using peer-to-peer transmission, provided you inform other peers where the object code and Corresponding Source of the work are being offered to the general public at no charge under subsection 6d.

A separable portion of the object code, whose source code is excluded from the Corresponding Source as a System Library, need not be included in conveying the object code work.

A “User Product” is either (1) a “consumer product”, which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a consumer product, doubtful cases shall be resolved in favor of coverage. For a particular product received by a particular user, “normally used” refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the particular user actually

uses, or expects or is expected to use, the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product.

“Installation Information” for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made.

If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM).

The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network.

Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

## **7. Additional Terms.**

“Additional permissions” are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions.

When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

- a) Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or
- b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or
- c) Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in reasonable ways as different from the original version; or
- d) Limiting the use for publicity purposes of names of licensors or authors of the material; or
- e) Declining to grant rights under trademark law for use of some trade names, trademarks, or service marks; or
- f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified versions of it) with contractual assumptions of liability to the recipient, for any liability that these contractual assumptions directly impose on those licensors and authors.

All other non-permissive additional terms are considered “further restrictions” within the meaning of section 10. If the Program as you received it, or any part of it, contains a notice stating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms.

Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way.

## **8. Termination.**

You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11).

However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation.

Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you

have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice.

Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.

## **9. Acceptance Not Required for Having Copies.**

You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

## **10. Automatic Licensing of Downstream Recipients.**

Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.

An “entity transaction” is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.

You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.

## **11. Patents.**

A “contributor” is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's “contributor version”.

A contributor's “essential patent claims” are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, “control” includes the right to grant patent sublicenses in a manner consistent with the requirements of this License.

Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version.

In the following three paragraphs, a “patent license” is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To “grant” such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party.

If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. “Knowingly relying” means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.

If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it.

A patent license is “discriminatory” if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the covered work, unless you entered into that arrangement, or that patent license was granted, prior to 28 March 2007.

Nothing in this License shall be construed as excluding or limiting any implied license or other defenses to infringement that may otherwise be available to you under applicable patent law.

## **12. No Surrender of Others' Freedom.**

If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program.

### **13. Use with the GNU Affero General Public License.**

Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU Affero General Public License into a single combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the special requirements of the GNU Affero General Public License, section 13, concerning interaction through a network will apply to the combination as such.

### **14. Revised Versions of this License.**

The Free Software Foundation may publish revised and/or new versions of the GNU General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU General Public License “or any later version” applies to it, you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the GNU General Public License, you may choose any version ever published by the Free Software Foundation.

If the Program specifies that a proxy can decide which future versions of the GNU General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program.

Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.

### **15. Disclaimer of Warranty.**

THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM “AS IS” WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

### **16. Limitation of Liability.**

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING

RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

**17. Interpretation of Sections 15 and 16.**

If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability accompanies a copy of the Program in return for a fee.

Microsoft Community License (Ms-CL)

This license governs use of the accompanying software. If you use the software, you accept this license. If you do not accept the license, do not use the software.

## 1. Definitions

The terms "reproduce," "reproduction," "derivative works," and "distribution" have the same meaning here as under U.S. copyright law.

A "contribution" is the original software, or any additions or changes to the software.

A "contributor" is any person that distributes its contribution under this license.

"Licensed patents" are a contributor's patent claims that read directly on its contribution.

## 2. Grant of Rights

(A) Copyright Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free copyright license to reproduce its contribution, prepare derivative works of its contribution, and distribute its contribution or any derivative works that you create.

(B) Patent Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free license under its licensed patents to make, have made, use, sell, offer for sale, import, and/or otherwise dispose of its contribution in the software or derivative works of the contribution in the software.

## 3. Conditions and Limitations

(A) Reciprocal Grants- For any file you distribute that contains code from the software (in source code or binary format), you must provide recipients the source code to that file along with a copy of this license, which license will govern that file. You may license other files that are entirely your own work and do not contain code from the software under any terms you choose.

(B) No Trademark License- This license does not grant you rights to use any contributors' name, logo, or trademarks.

(C) If you bring a patent claim against any contributor over patents that you claim are infringed by the software, your patent license from such contributor to the software ends automatically.

(D) If you distribute any portion of the software, you must retain all copyright, patent, trademark,

and attribution notices that are present in the software.

(E) If you distribute any portion of the software in source code form, you may do so only under this license by including a complete copy of this license with your distribution. If you distribute any portion of the software in compiled or object code form, you may only do so under a license that complies with this license.

(F) The software is licensed "as-is." You bear the risk of using it. The contributors give no express warranties, guarantees or conditions. You may have additional consumer rights under your local laws which this license cannot change. To the extent permitted under your local laws, the contributors exclude the implied warranties of merchantability, fitness for a particular purpose and non-infringement.

(VII) GNU Library General Public License (LGPL) Version 2.1**

GNU LESSER GENERAL PUBLIC LICENSE

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.  
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA  
Everyone is permitted to copy and distribute verbatim copies  
of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts  
as the successor of the GNU Library Public License, version 2, hence  
the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

**TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION**

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- \* a) The modified work must itself be a software library.
- \* b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
- \* c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
- \* d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does

not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

- \* a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

- \* b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate

properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

\* c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

\* d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

\* e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

\* a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

\* b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify

the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation;

we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

## NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential

damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. **Accepting Warranty or Additional Liability.** While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program

whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

## TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to

this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
- b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
- c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you

received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license

practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

## NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF

DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

**GNU LESSER GENERAL PUBLIC LICENSE**

Version 3, 29 June 2007

Copyright © 2007 Free Software Foundation, Inc. <<http://fsf.org/>>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This version of the GNU Lesser General Public License incorporates the terms and conditions of version 3 of the GNU General Public License, supplemented by the additional permissions listed below.

**0. Additional Definitions.**

As used herein, “this License” refers to version 3 of the GNU Lesser General Public License, and the “GNU GPL” refers to version 3 of the GNU General Public License.

“The Library” refers to a covered work governed by this License, other than an Application or a Combined Work as defined below.

An “Application” is any work that makes use of an interface provided by the Library, but which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library.

A “Combined Work” is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the “Linked Version”.

The “Minimal Corresponding Source” for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.

The “Corresponding Application Code” for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.

**1. Exception to Section 3 of the GNU GPL.**

You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL.

**2. Conveying Modified Versions.**

If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the facility is invoked), then you may convey a copy of the modified version:

- a) under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or
- b) under the GNU GPL, with none of the additional permissions of this License applicable to that copy.

### **3. Object Code Incorporating Material from Library Header Files.**

The object code form of an Application may incorporate material from a header file that is part of the Library. You may convey such object code under terms of your choice, provided that, if the incorporated material is not limited to numerical parameters, data structure layouts and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following:

- a) Give prominent notice with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License.
- b) Accompany the object code with a copy of the GNU GPL and this license document.

### **4. Combined Works.**

You may convey a Combined Work under terms of your choice that, taken together, effectively do not restrict modification of the portions of the Library contained in the Combined Work and reverse engineering for debugging such modifications, if you also do each of the following:

- a) Give prominent notice with each copy of the Combined Work that the Library is used in it and that the Library and its use are covered by this License.
- b) Accompany the Combined Work with a copy of the GNU GPL and this license document.
- c) For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document.
- d) Do one of the following:
  - 0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.
  - 1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version.

- e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)

## **5. Combined Libraries.**

You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both of the following:

- a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.
- b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

## **6. Revised Versions of the GNU Lesser General Public License.**

The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library as you received it specifies that a certain numbered version of the GNU Lesser General Public License “or any later version” applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If the Library as you received it does not specify a version number of the GNU Lesser General Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation.

If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall apply, that proxy's public statement of acceptance of any version is permanent authorization for you to choose that version for the Library.
