## FLEXMEDIA 100BASE-T1 AND 1000BASE-T1 AVAILABLE SOON

**Goeppingen, 11/30/2019 – STAR COOPERATION media converters FlexMedia 100BASE-T1 and FlexMedia 1000BASE-T1 will be available soon.**

### FlexMedia 100BASE-T1 and FlexMedia 1000BASE-T1: This is how the media converters work

The media converters convert a standard PC or laptop into an automotive Ethernet-capable device that can be used to pick up automotive Ethernet signals directly from a vehicle. Simply connected to the standard Ethernet port of the PC (100BASE-TX or 1000BASE-TX), the 100BASE-T1 or 1000BASE-T1 signals can be generated or analyzed in conjunction with an external power supply. Care was taken during the design phase to achieve an attractive price-performance ratio which clearly sets them apart from other devices on the market.
